

Laptop Lock-up™ LL-10-07-AL

11-DRAWER E-TOOL CABINET

LAPTOP LOCK-UP™ E-TOOL CABINET FOR TELOS WIRELESS LAN SOLUTIONS

Telos uses Laptop Lock-up™ cabinets to provide safe storage, charging, and communication solutions for military maintenance technicians throughout the United States. Each technician is assigned an individually keyed drawer in which to store their ruggedized computer. The drawer has the capability to charge the laptop battery and connect the laptop to the WLAN through a data communication connection provided by a patented coiled Cat 6 wire system and an Ethernet-managed switch which is backed up by a UPS.

Wireless LAN solutions from Telos enable organizations to extend the reach of their enterprise networks beyond offices and other wired facilities. With WLAN technology, users in remote or hard-to-wire locations such as aircraft flightlines and landing decks can access databases, information, and applications just as if they were connected to the wired enterprise LAN.

Functions:

- To easily secure laptop computers, recharge batteries, and download/upload data
- For storage of test equipment

Features:

- No installation necessary; simply remove from carton, connect to main power supply located on back of cabinet, and connect data line to switch. Cabinet is then ready to securely store laptop computers or test equipment with the capability to recharge and/or download data while the laptop is secured in the drawer
- An Ethernet-managed switch can be located in a locking security enclosure
- UPS provided for Ethernet-managed switch and fans
- Patented power supply system; power to each of the ten computer drawers by a U- approved coiled cord with 3-prong, grounded outlet
- Cat 6 data connection to each of the ten computer drawers is by a patented coiled cord system with RJ45 jack
- Locking rear door allows easy access to internal components of cabinet
- Two fans provided for additional ventilation
- Each drawer has a cam lock all keyed differently with 2 master keys per cabinet, or one-lock system available
- Drawers and cabinet vented on bottom, sides, and front
- Security enclosure protects Cat 6 and Ethernet-managed switch from unauthorized access
- Four wheels provided with unit
- Highly durable textured powder coat paint in Desert Tan, Black and Stealth Blue (other colors available)
