

# Laptop Lock-up® LL-10-3

## 10-DRAWER CABINET

### LAPTOP LOCK-UP® / E-TOOL CABINET FOR TELOS WIRELESS LAN SOLUTIONS

Telos uses Laptop Lock-up® cabinets to provide safe storage, charging, and communication solutions for military maintenance technicians throughout the United States. Each technician is assigned an individually keyed drawer in which to store their ruggedized computer. The drawer has the capability to charge the laptop battery and connect the laptop to the WLAN through a data communication connection provided by a patented coiled Cat 5 wire system and an Ethernet switch which is backed up by a UPS.

Wireless LAN solutions from Telos enable organizations to extend the reach of their enterprise networks beyond offices and other wired facilities. With WLAN technology, users in remote or hard-to-wire locations such as aircraft flightlines and landing decks can access databases, information, and applications just as if they were connected to the wired enterprise LAN.

#### Functions:

- To easily secure laptop computers, recharge batteries, and download/upload data
- For storage of test equipment

#### Features:

- No installation necessary; simply remove from carton, connect to main power supply located on back of cabinet, and connect data line to switch. Cabinet is then ready to securely store lap top computers or test equipment with the capability to recharge and/or download data while the laptop is secured in the drawer
- A 16 port Ethernet switch is located on top of the cabinet and is visible through a window in a locking security enclosure
- UPS provided for Ethernet switch and fans
- Patented power supply system; power to each drawer by a UL approved coiled cord with 3 prong grounded outlet
- Cat 5 Data connection to each drawer is by a patented coiled cord system with RJ45 jack
- Locking rear door allows easy access to internal components of cabinet
- Two fans provided for additional ventilation
- Each drawer has a cam lock all keyed differently with 2 master keys per cabinet
- Drawers and cabinet vented on bottom and sides
- Security enclosure protects Cat 5 and Ethernet switch from unauthorized access
- Four wheels provided with unit
- Highly durable textured powder coat paint in Black and Stealth Blue (other colors available)
- Also available in 2, 3, or 5 drawer models
