

**LAPTOP LOCK-UP® – MAKES LAPTOPS, NOTEBOOKS, HANDHELDS, AND E-TOOLS MORE EFFICIENT BY PROVIDING COMMUNICATIONS, BATTERY CHARGING, AND SECURITY IN A COMPUTER STORAGE CABINET.**

Telos uses Laptop Lock-up® cabinets to provide safe storage, charging, and communication solutions for deployable military maintenance technicians throughout the United States and OCONUS. Laptop Lock-up® cabinets provide safe storage, charging and communication solutions for commercial and military maintenance technicians throughout the United States. Each technician is assigned an individually keyed drawer to store their laptop. The drawer has the capability to charge the laptop battery and connect the laptop to the WLAN through a data communication connection provided by a patented coiled Cat 6 wiring system with an Ethernet switch.

Laptop Lock-up® is a tool that makes laptops, notebooks, handhelds, and e-tools more efficient and makes mobile workers better able to complete their work assignments.

**Specifications: Model Number: LL-20-07**

- 52"H X 40"W X 24"D Sturdy 16, 14, & 13 gauge steel construction
- Durable powder coat paint finish
- Full drawer width pull handles, with heavy duty, full extension telescopic drawer slides with precision ball bearings. Drawer 16"W X 16"D X 3.5"H
- Separately locking drawers for security and individual key assignment, with master keys that will work on all cabinet locks
- Cabinet is equipped with two independent 110 VAC 15 AMP master supply systems that can be ganged together or operated separately, if required
- AC power delivered to each drawer by a patented coiled cord system, a coiled 15 amp, three-pronged, grounded outlet per drawer
- No mechanical wire management required; no wire installation required
- Cat 6 data communication cables delivered to each drawer by a patented coiled cord system; a coiled Cat 6 cable is connected to each drawer with a RJ 45 jack and directly to the switch
- No patch cords or couplers required
- Four (105 cfm) fans with noise reducing systems provide quiet cabinet cooling
- 19" rack mount for switch conveniently located on the rear of the cabinet in a key locked security enclosure, with an external RJ 45 LAN connection
- Six (4") heavy duty, non-marking, swivel casters, all locking
- 2 fork lift / tie down tubes for easy transport and security
